

IGOR ŠTIKOVAC

MECHANICAL ENGINEER

INTERNSHIP

Jat technics | September 2017 - June 2019

I gained hands-on experience in aircraft maintenance and technical operations. I supported the team in performing inspections and routine maintenance, developing a deeper understanding of aviation technology and safety standards.

CodeIT | May 2021 - September 2021

I participated in tracking new trends in design and web application development. I worked on implementing creative ideas into digital projects, collaborating with the team on building, maintaining, and integrating various systems and devices. This internship allowed me to expand my knowledge in development and improve the skills needed to work in the creative digital industry.

WORK EXPERIENCE

Primary school "14. oktobar"

Belgrade - Serbia
